

# Canyon Watch Volunteer Guide

## Lake Murray

Distance: .93 Miles  
Hike Time: 45 Minutes  
Difficulty Level: Easy

## Program Overview

The ocean is one of our greatest natural treasures, yet it is continually threatened by pollutants from sewer spills and storm water run-off.

San Diego, a city that borders the oldest, largest, and deepest ocean in the world, has over 40 urban canyons that hold 300 miles of public sewer lines. Most of these pipelines have unfortunately exceeded their life expectancy and are often inadequately maintained, making them susceptible to damage that can cause harmful spillover into our local

Once a break in the system takes place, untreated wastewater (the stuff that comes from our washing machines, sinks and toilets) may enter a nearby creek, river or storm drain and travel hundreds of miles downstream, eventually pouring into our coastal waters. Here, it spreads, becomes virtually impossible to contain and harms fragile marine life.

To help keep our waters contaminant free and safe for all, the San Diego Oceans Foundation has teamed up with the Metropolitan Wastewater Department's Sewer Spill Reduction Program to enlist citizen volunteers.

Volunteers are crucial to the Canyon Watch Program by regularly monitoring our urban canyons and reporting potential threats.

# What to Look For...

As a Canyon Watch volunteer, you will be responsible for monitoring our local canyons. While patrolling, you should look for leaks, unusual smells and damaged or vandalized manholes. Any findings should be recorded in your 'Canyon Watch Field Report' and submitted online after your hike is completed. **Immediately report any active sewer spills or foamy discharge to the Sewer Emergency Hotline (619) 515-3525.**

## Manholes

Manholes are typically painted lime green for easy identification. Check that all manholes are secured with a locking bar or recessed bolts and that they are clear of vandalism and other damage.

## Unusual Smells

Manholes in proper working order should not emit odors. Foul smells are a sign of possible leaks or spills and should be included in your 'Field Report', but do not warrant a call to the Emergency Sewer Hotline.

## Sewer Leaks & Foamy Discharge

Any sort of foamy discharge or active spill should be reported **immediately** to the Sewer Emergency Hotline! It is crucial to record the number painted on the manhole structure and GPS coordinates, if available, so you can accurately report its location.

## Exposed Sewer Lines

Pipelines should be buried underground. If you come across sewer pipes that have been exposed due to erosion, please let us know. Exposed pipes are more likely to crack and leak and should be reported.

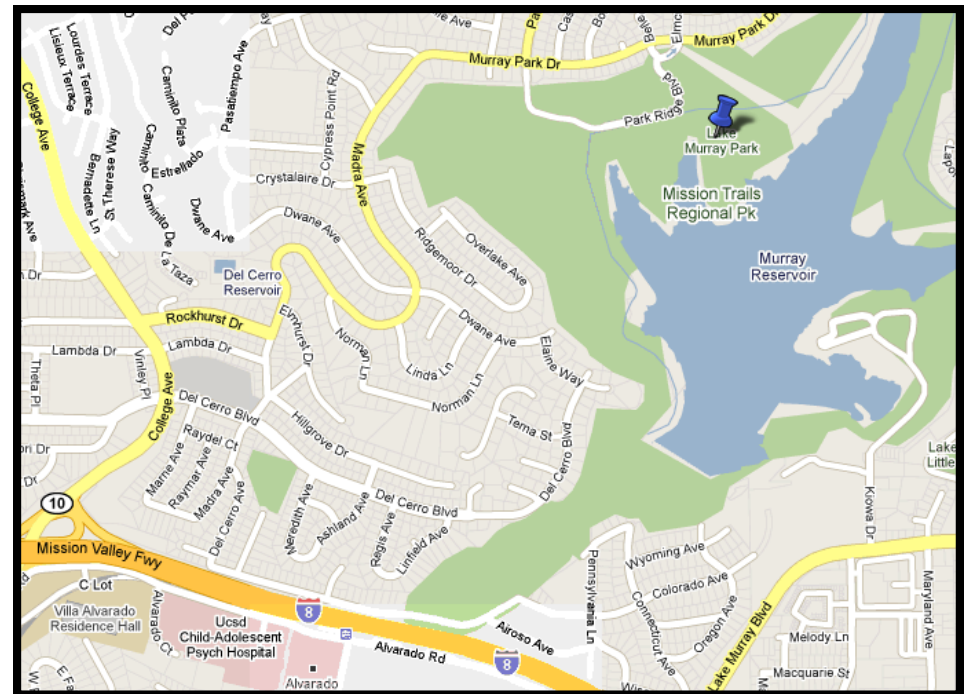

# Lake Murray

Lake Murray Community Park  
San Diego, CA 92120

Take I-8 towards College Ave.

Exit College Ave and head north. Make a right onto Navajo Rd. Continue until you hit Park Ridge Blvd and make a right. Turn left at Murray Park Dr. Turn right at Lake Murray Community Park and follow the road past baseball fields to park.

The trailhead can be found just south of the parking lot. Once you enter, make a right at the fork.

# Manhole Guide

The following information will lead you to the various manholes throughout this canyon. Please read the 'Hiking Safety Tips' available at [www.sdoceans.org](http://www.sdoceans.org) before beginning your hike.

Due to vegetation growth and other, unforeseen changes, some manholes may not be immediately visible. If a manhole cannot be reached due to construction or certain environmental hazards, please make a note of it and move on to the next manhole on your list.

1. Manhole #457  
32° 47' 21" N 117° 05' 55" W

Take path on right of trail when you reach the creek. Turn left onto path. Manhole is on left of path. Return to main trail.

2. Manhole #456  
32° 47' 17" N 117° 02' 54" W

Right of trail.

3. Manhole #58  
32° 47' 14" N 117° 02' 52"

Right of trail.

4. Manhole #59  
32° 47' 09" N 117° 02' 51" W

Right of trail.

5. Manhole #60  
32° 47' 08" N 117° 02' 51" W

Right of trail.

5. Manhole #1  
32° 47' 07" N 117° 02' 51" W

Right of trail.

6. Manhole #2  
32° 47' 06" N 117° 02' 51" W

Right of trail.

7. Manhole #4  
32° 47' 05" N 117° 02' 48" W

Right of trail. Road ahead is closed. Turn around and head in the direction you came from. Continue past the first manhole (#457) to find next MH#42.

8. Manhole #42  
32° 47' 33" N 117° 2' 26" W

Continue on trail, past parking lot and baseball fields (now on left). Take dirt path on left, where fence surrounding golf course ends (before restroom) and go right. Manhole is on the left of path.

9. Manhole #43  
32° 47' 35" N 117° 02' 25" W

Continue on dirt path. Left of path.

10. Manhole #44  
32° 47' 37" N 117° 02' 25" W

Left of path. Continue on dirt path.

11. Manhole #45  
32° 47' 40" N 117° 02' 22" W

Left of path. Continue on dirt path.

12. Manhole #46  
32° 47' 41" N 117° 02' 21" W

Left of path. Continue on dirt path.

13. Manhole #47  
32° 47' 44" N 117° 2' 20" W

Left of path. Continue on dirt path.

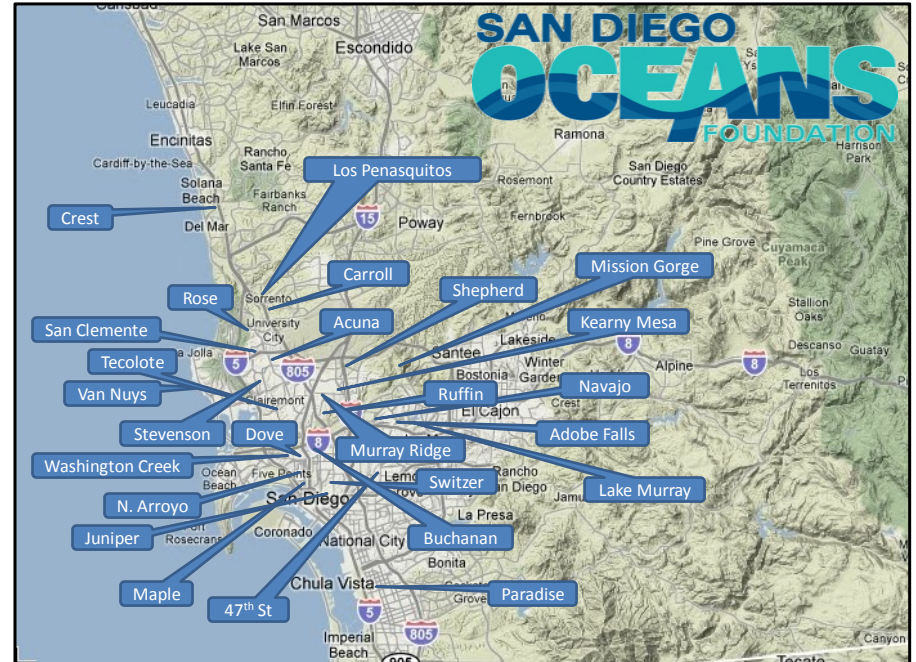

14. Manhole #96  
32° 47' 47" N 117° 02' 17" W

Last manhole, on left of path.

## Thank you for monitoring Lake Murray!

Please be sure to submit your **Canyon Watch Field Report** online at [http://sdoceans.org/pollution\\_report\\_2.php](http://sdoceans.org/pollution_report_2.php) within 24 hours of your hike.

Volunteer submissions are the key to early detection and prevention of raw sewage from making its way into our ocean!

Visit [www.sdoceans.org](http://www.sdoceans.org) to locate guides for other available canyons in San Diego County.
